In recent years, journalism has come under attack from both the left and the right. Some people argue that journalism is biased against conservatives, while others argue that it is too soft on liberals. This criticism is often unfair, and it ignores the important role that journalism plays in our society.

Journalism is not about taking sides. It is about reporting the facts, even when those facts are inconvenient or unpopular. Good journalism holds those in power to account, informs the public about important issues, and provides a voice for the voiceless.

In this book, I will show you how journalism can make a difference in the world. I will tell the stories of journalists who have risked their lives to report on important stories, and I will show you how journalism can help to solve problems and make the world a better place.
